Jorge, I'm glade your doing well, good to have talked to you the other night. I hope we can all meet up in P.R. next year. Rubin is sending some pictures of me to you shortly. It's been a long time but I always think of you and tell some of the newly returned soldiers about you, where I go shooting on the weekends, there are a lot of Vets, after they tell me I'm full of shit, I tell them to look you up, one guy looked you up on his I phone, and then bought me lunch!. I'm hoping we get together for a long talk, some of that good Rum, and laugh our asses off! My time in the bush with you and the shit we got into was just "off the hook" why were still breathing is beyond me! Guess the Devil don't want us. A lot of the guys in Recon owe you there lives

I tried to go for a 3<sup>rd</sup> tour, but they turned me down, thought I had combat fatige, said I had to go stateside and ended up in Germany for the last months of my Military time. Been married to the same woman for 36yrs how I did that I don't know, she probably has more PTSD than me. I retired 5yrs ago, worked at the V.A. Hospital in Palo Alto for 37yrs as a cabinet maker, and matenace person, I'm just kick'in back on permanent R&R! eatin red meat, drinkin red wine, and having a great time. My phone # 650-321-7582, wait till after the recording ends if I hear your voice I'll pickup, call collect if you want. Will call you soon, Rich, (your point man).
